

Community Reinvestment Act Public File

Last Updated January 1, 2026

The Community Reinvestment Act (CRA) ensures the financial institution meets the credit needs of its entire assessment area(s) including low-moderate income neighborhoods consistent with safe and sound operations. BrightBridge Credit Union (formerly Merrimack Valley Credit Union) is a non-profit organization and focuses on being a leader of community development, economic growth, and stability.

While providing financial services and lending, it is our goal to support our communities with charitable donations, volunteer services to non-profit organizations and provide financial education program to our communities for a healthier financial future. Everything is done with one goal in mind: Elevate people.

Our most recent CRA performance evaluation by the Massachusetts Division of Banks covered the periods from June 1, 2021 to June 6, 2023. Merrimack Valley Credit Union received an overall "High Satisfactory" rating; for helping to meet the credit needs of its assessment area, including low- and moderate-income neighborhoods, in a manner consistent with its resources and capabilities.

SEAL FAMILY FOUNDATION

Supporting the U.S. Navy SEALs and Their Families

2/1/2024

Merrimack Valley Credit Union
500 Merrimack St.
Lawrence, MA 01843

We would like to thank you for your donation to the SEAL Family Foundation. This donation will contribute to our important efforts to support the families of Naval Special Warfare operators in this particularly difficult and demanding time for our country. Your generosity also tells these heroes and their families that their sacrifices are appreciated.

Your donation of \$1,000.00, which we received on 2/1/2024, supports financial assistance programs to military personnel and their families who are served by the SEAL Family Foundation. In a very real sense, when our SEALs deploy - the families deploy. Roles change, routines are disrupted and these family members living among us bear the often silent burden of untold danger and uncertainty.

The SEAL Foundation is grateful to have your support. **No goods or services were received in exchange for this donation.**

Sincerely,

CAPT Duncan Smith, USN (Ret.)
Executive Director
SEAL Family Foundation

Merrimack Valley Credit Union
Attn: Sarita Ledani
500 Merrimack St
Lawrence, MA 01843-1756

Dear Sarita,

On behalf of all the staff and patients at Boston Health Care for the Homeless Program, please accept our deep gratitude for Merrimack Valley Credit Union's most generous support of our 2024 *Medicine that Matters* Gala! Your wonderful donation of \$5,000.00 made on 5/28/2024 will go directly to support the care we provide for our 10,000 patients.

This year's inspiring Gala, honoring Dr. Monica Bharel with the Dr. Jim O'Connell Award and Boston Scientific and Boston Scientific Foundation with the Tim Russert Award, was full of hope and promise. Our honorees exemplify truly extraordinary leadership in ensuring that all persons, no matter their housing status, receive the health care they need and deserve. We are so proud and grateful for all they do for our community.

Thank you for your role in making the Gala a success! Your generosity to the event helped us raise \$1.1 million of critically needed funds to sustain and strengthen our comprehensive services. Your support also makes it possible for us to pivot quickly to meet the changing needs of our most vulnerable neighbors. For all of this, we could never thank you enough.

Our patients tell us of the daunting challenges they face every day experiencing the trauma of homelessness. Your donation reflects your deeply human concern for their wellbeing -- reminding us of the words of Tim Russert at our 2008 Gala, "Understand that when people get together around a common purpose and a common good, they are unstoppable."

If you would like to learn more about our lifechanging and lifesaving care, we hope you will take the time to visit us at our 780 Albany Street location and see it firsthand. Please feel free to contact Edith Gregory, our Corporate Relations Manager at egregory@bhchp.org to schedule a tour. ---

Again, thank you for the profound impact you make on so many lives

Sincerely,

Denise De Las Nueces, MD, MPH
Interim CEO & Chief Medical Officer

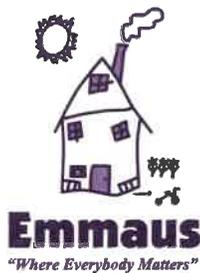

Jim O'Connell, MD
President & Founding Physician

Special Note: Please forgive the delay in expressing our gratitude for your generosity. We are experiencing a staffing shortage at our program and only wish we could have sent this thank you the minute we received your gift -- thank you for your generosity and understanding!

For your tax records, the value of goods and services provided for dinner is \$150.00 per person.

December 3, 2024

Mr. John Howard, President & CEO
Merrimack Valley Credit Union
500 Merrimack St.
Lawrence, MA 01843-1981

Dear Mr. Howard,

John

Thank you so much for Merrimack Valley Credit Union's incredibly generous donation of \$30,000.00 to Emmaus. This donation is in support of our Sip, Sample and Support Gala and our Cycle for Shelter event. Both of these events are major fundraisers for Emmaus and are critical as we continue to care for the region's most-vulnerable. We are truly grateful for the help the Merrimack Valley Credit Union is able to provide the families and individuals we serve who are facing homelessness.

Since we were founded, we are proud to have assisted over 40,000 women, men and children move from homelessness towards permanent housing, jobs and self-sufficiency. On any given night, over 300 adults and children call Emmaus "home." In fact, this year, we were able to successfully place 25 families from our shelter into permanent housing. Since July 1 of this year, 23 families were diverted from entering our shelter by being placed directly into housing under our Diversion Program. During this time, we also placed 17 unsheltered individuals (people living in their cars, on the streets and from our emergency individual shelter) directly into permanent housing. As housing costs continue to rise, we anticipate that more people will need our services. We will be ready to meet this challenge thanks to the incredible support of our community.

While times continue to be tough for so many, your generous support makes life a little easier for those struggling with housing insecurity. With the persistent lack of affordable and available housing in the area, unrelenting increase in day-to-day expenses and the need for a response to the migrant housing crisis in Massachusetts, your contribution will allow Emmaus to provide for and assist those who are facing homelessness. Because of you, we will be able to help support the individuals and families critically in need of our services throughout the next year.

We are grateful for the generosity of Emmaus donors, like you, who support our goal to help people reach their fullest potential. The continued support from the Emmaus community is crucial to our mission. **Your support truly makes a world of difference.**

I have the honor of being,

Sincerely yours,

Jeanine T. Murphy
Chief Executive Officer

Jeanine

John Thank you for your generous gift to help those in such need! You are an angel! We are so grateful!

For IRS purposes: No goods or services in-kind were received in exchange for this gift. Emmaus is a 501 (c)(3) organization.

Providing shelter, affordable housing and compassionate services for homeless individuals and families.
Permanent Affordable Housing • Emergency Shelters • Housing Services
Housing assistance for people living with AIDS/HIV • D'Youville Center for Social Justice
Certified as a Massachusetts W/NPO, Community Housing Development Organization (CHDO), and Service Enterprise.

INSTITUTION RATING

INSTITUTION'S CRA RATING: This institution is rated **High Satisfactory**

An institution in this group has a highly satisfactory record of helping to meet the credit needs of its assessment area, including low- and moderate-income neighborhoods, in a manner consistent with its resources and capabilities

The following points summarize the credit union's performance under Intermediate Small Institution Standards.

The Lending Test is rated High Satisfactory.

- The loan-to-share ratio (LTS) is reasonable given the institution's size, financial condition, and assessment area credit needs.
- The credit union made a substantial majority of its home mortgage loans in the assessment area.
- The geographic distribution of loans reflects good dispersion throughout the assessment area.
- The distribution of borrowers reflects good penetration of loans among individuals of different income levels.
- The credit union did not receive any CRA-related complaints since the previous evaluation; the credit union has a reasonable record relative to its fair lending policies and procedures.

The Community Development Test is rated High Satisfactory.

- Merrimack Valley Credit Union demonstrated good responsiveness to the assessment area's community development needs through qualified investments and community development services. Examiners considered the institution's capacity and the need and availability of such opportunities for community development in the assessment area.

SCOPE OF EVALUATION

General Information

The Community Reinvestment Act (CRA) requires the Massachusetts Division of Banks (“Division”) to use their authority when examining financial institutions subject to their supervision, to assess the institution's record of meeting the needs of its entire assessment area, including low- and moderate-income neighborhoods, consistent with safe and sound operation of the institution. Upon conclusion of such examination, the Division must prepare a written evaluation of the institution's record of meeting the credit needs of its membership.

This evaluation covers the period from the prior evaluation dated June 14, 2021, to the current evaluation dated June 6, 2023. Examiners used Intermediate Small Examination Procedures to evaluate the credit union’s CRA performance. These procedures include the Lending Test, and the Community Development Test.

Examiners used the 2015 and 2020 ACS updated data for metropolitan area boundaries, census tracts and their income levels, and demographic information.

The Lending Test considered the credit union’s performance according to the following criteria:

- LTS ratio
- Assessment area concentration
- Geographic distribution
- Borrower profile
- Response to CRA-related complaints and Fair Lending Program

The Community Development Test considered the following factors:

- Number and dollar amount of community development activity, including qualified services, qualified investments, and community development loans.
- The responsiveness of such activities to the community development needs of the area.

Loan Products Reviewed

Merrimack Valley Credit Union’s major product lines are home mortgage loans and consumer loans, considering the credit union’s business strategy and the number and dollar volume of loans originated during the evaluation period. The home mortgage lending universe was readily available of these two lending products.

Examiners reviewed home mortgage loans reported on the credit union’s 2021 and 2022 Home Mortgage Disclosure Act (HMDA) Loan Application Registers (LARs). The credit union originated 788 HMDA-reportable loans totaling \$205.7 million in 2021 and 782 HMDA-reportable loans totaling \$155.1 million in 2022. Examiners compared credit union lending in 2020 and 2021 to aggregate HMDA data for the relevant year. Examiners also compared credit union lending to applicable demographic data.

For the Lending Test, examiners reviewed the number and dollar volume of home mortgage loans. While the tables throughout this evaluation include both the number and dollar volume of loans, examiners emphasized credit union performance by number of loans, as the number of loans better indicates the number of individuals served.

For the Community Development Test, examiners drew conclusions based on data provided by credit union management on community development loans, qualified investments, and retail and community development services since the prior CRA evaluation dated June 14, 2021.

DESCRIPTION OF INSTITUTION

Background

Merrimack Valley Credit Union is a member-owned, not-for-profit cooperative institution originally chartered by the Commonwealth of Massachusetts in 1955. Membership is limited to those persons living, working, or having business within Bristol, Essex, Middlesex, Franklin, Hampden, Hampshire, and Norfolk Counties. The credit union has 76,529 members as of March 31, 2023. The credit union merged with RTN Credit Union on June 1, 2023, expanding its membership base significantly.

Merrimack Valley Credit Union received a “Satisfactory” rating from the Massachusetts Division of Banks during its prior evaluation using the Intermediate Small Institution Examination Procedures, published June 14, 2021. The Lending Test was assigned a “Satisfactory” and the Community Development Test was assigned a “Satisfactory”.

Operations

As of the date of the evaluation, the credit union offers products and services through 18 full-service branches, including its main office at 500 Merrimack St, Lawrence, MA located in a low-income census tract. The full-service branches are listed below.

Branch Locations			
Massachusetts			
Amesbury*	Bridgewater	Brookline*	Boston*
Danvers*	Fairhaven	Haverhill	Lawrence
Marlborough*	Methuen	North Andover	Plymouth
Quincy	Tewksbury*	Waltham*	Worcester*
New Hampshire			
Plaistow	Seabrook		
*New Branches since the June 1 st Merger			

The credit union operates seven additional limited-service branches for employees of Raytheon and General Dynamics as a result of the RTN merger. Locations include Andover, Dedham, Lawrence, Marlborough, Taunton, Tewksbury, and Woburn.

All 18 full-services branches offer lobby services to members and generally operate between 8:30 a.m. to 5:00 p.m. most weekdays (with expanded hours on Thursdays and Fridays) and 8:30 a.m. to 1:00 p.m. on Saturdays. The Quincy MA and Seabrook NH locations are open from 10:00am to 5:00pm from Monday through Friday. As mentioned previously the credit union has added 8 full-service and seven limited-service branches since the previous evaluation.

The credit union offers both personal, student, and business accounts to members. Members can open checking accounts, savings accounts, certificates of deposits, individual retirement accounts, as well as business checking accounts. Services offered include online banking and mobile banking. In addition to deposit accounts, credit union members can apply for mortgage

loans, home equity loans and lines of credit, personal and student loans, new and used auto loans, and credit builder loans. Also, business lending offers commercial real estate loans and business lines of credit. The credit union also participates in shared branching, to allow member to access retail services across the United States.

Ability and Capacity

As of March 31, 2023, assets totaled approximately \$1.4 billion, and shares totaled \$1.2 billion. Total loans were \$927.6 million, representing approximately 67.6 percent of total assets. Since the previous CRA evaluation, assets increased by 7.7 percent and the lending portfolio increased by 27.6 percent.

The following table illustrates residential lending accounts for the largest concentration of loans at 61.8 percent of the lending portfolio. Used vehicle loans were the next largest concentration at 17.2 percent of the portfolio. This product mix remains similar in concentration to the last evaluation.

Loan Portfolio Distribution as of 3/31/2023		
Loan Type	Dollar Amount (\$)	Percent of Total Loans
Unsecured Credit Card Loans	308,617	0.0
Non-Federally Guaranteed Student Loans	10,093,357	1.1
All Other Unsecured Loans/LOCs	11,230,743	1.2
New Vehicle Loans	33,816,764	3.6
Used Vehicle Loans	159,334,935	17.2
All Other Secured Non-Real Estate Loans/LOCs	13,023,899	1.4
Total Loans/LOCs Secured by 1 st Lien 1-4 Family Residential	494,561,836	53.3
Total Loans/LOCs Secured by Junior Lien 1-4 Family	78,687,305	8.5
All Other (Non-Commercial) Real Estate Loans/LOCs	207,516	0.0
Commercial Loans/Lines of Credit Real Estate Secured	124,149,357	13.4
Commercial Loans/Lines of Credit Non-Real Estate Secured	2,197,090	0.2
Total Loans	927,611,419	100.0
<i>Source: Reports of Condition and Income</i>		

Examiners did not identify any financial, legal, or other impediments that affect the credit union's ability to meet assessment area credit needs.

DESCRIPTION OF ASSESSMENT AREA

The CRA requires each financial institution to define one or more assessment areas within which its CRA performance will be evaluated. Merrimack Valley Credit Union has designated a single assessment area in 2021 and 2022 encompassing 12 counties in Massachusetts, New Hampshire and Rhode Island. The following table is a list of counties the credit union has designated as its assessment area.

Assessment Area			
Massachusetts			
Barnstable	Bristol	Essex	Middlesex
Norfolk	Plymouth	Suffolk	
New Hampshire			
Hillsborough	Rockingham		
Rhode Island			
Bristol	Kent	Providence	

Economic and Demographic Data

The assessment area includes 1590 census tracts. These tracts reflect the following income designations according to the 2020 ACS U.S. Census:

- 165 low-income tracts,
- 298 moderate-income tracts,
- 607 middle-income tracts,
- 468 upper income tracts, and
- 52 tracts with no income designation.

This represents a change from the 2015 ACS Census data (used in concert with 2021 lending information), where 1442 census tracts comprised the assessment area.

The following table illustrates select demographic characteristics of the assessment area.

Demographic Information of the Assessment Area						
Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	NA* % of #
Geographies (Census Tracts)	1,590	10.4	18.7	38.2	29.4	3.3
Population by Geography	6,923,773	9.4	19.0	39.5	31.3	0.9
Housing Units by Geography	2,852,505	8.8	19.5	41.1	29.9	0.7
Owner-Occupied Units by Geography	1,627,380	3.3	14.5	44.6	37.2	0.4
Occupied Rental Units by Geography	984,543	17.9	27.1	34.0	19.7	1.3
Vacant Units by Geography	240,582	8.2	22.5	45.9	22.4	0.9
Family Distribution by Income Level	1,653,172	22.5	16.7	20.4	40.4	0.0
Household Distribution by Income Level	2,611,923	26.2	14.7	17.1	41.9	0.0
Median Family Income MSA - 12700 Barnstable Town, MA MSA		\$99,410	Median Housing Value			\$450,654
Median Family Income MSA - 14454 Boston, MA		\$112,607	Median Gross Rent			\$1,435
Median Family Income MSA - 15764 Cambridge-Newton-Framingham, MA		\$121,481	Families Below Poverty Level			6.3%
Median Family Income MSA - 31700 Manchester-Nashua, NH MSA		\$103,238				
Median Family Income MSA - 39300 Providence-Warwick, RI-MA MSA		\$89,555				
Median Family Income MSA - 40484 Rockingham County-Strafford County, NH		\$107,377				
<i>Source: 2020 ACS, 2022 D&B Data, and FFIEC Estimated Median Family Income;</i>						
<i>(*) The NA category consists of geographies that have not been assigned an income classification.</i>						

There are 2,852,505 housing units in the area. Of these units, 57.1 percent are owner occupied, 34.1 percent are occupied rental units, and 8.4 percent are vacant. The median housing value of \$450,654 based on ACS Data reflects an expensive area. Examiners also reviewed public HMDA data and noted that the average loan originated for 1-4 family purchase loans was \$483,584 in 2021 and increased to \$520,128 in 2022. This reflects an increase in home prices in even the last year.

The following table reflects the low-, moderate-, middle-, and upper-income categories for the assessment area.

Median Family Income Ranges				
Median Family Incomes	Low <50%	Moderate 50% to <80%	Middle 80% to <120%	Upper ≥120%

<i>Source: FFIEC</i>				

Competition

Merrimack Valley Credit Union operates in a highly competitive market for retail services. According to 2022 Deposit Market Share data, there were 274 financial institutions operating 2,341 branches in the assessment area. MVCU ranked 55th with a deposit market share of 0.2 percent. The institutions ahead of MVCU included the large state chartered and national retail institutions (State Street Bank and Trust, Bank of America NA, and Citizens Bank NA) with a combined deposit market share of 46.5 percent.

The credit union operates in a highly competitive area for mortgage loans. In 2022, 747 lenders reported 207,033 originated or purchased home mortgage loans MVCU ranked 65th with a 0.4 percent market share. The three most prominent lenders were large national banks and mortgage companies, accounting for 14.7 percent of the total market share.

Community Contacts

As part of the evaluation process, examiners contact organizations active in the assessment area to assist in identifying the credit and community development needs. This information helps determine whether local financial institutions are responsive to these needs.

Examiners contacted a representative from a non-profit organization serving Southeastern Massachusetts. The organization is a housing counseling agency providing education and technical assistance for low- and moderate-income residents. The contact noted an affordability gap as rising prices exceed even First Time Homebuyer (FTHB) grant and financial assistance opportunities. Housed individuals face homelessness risks including foreclosures, increasing rent prices, and utility bill increases. The contact mentioned that more support for shelters will be helpful in the current economy. There is a limit on financial institutions ability to close this affordability gap, and it is expanding to include middle-income families (that do not usually qualify for foreclosure or FTHB assistance). The contact relies heavily on financial institution donations and financial institutions work with counseling agencies to prepare buyers and ensure they have requisite financial literacy.

Examiners also contacted a community development organization focused on the Merrimack Valley region. The organization mentioned that the preservation of affordable housing and additional microlending for very small businesses were needs in the area, as well as general financial literacy. Housing prices have grown by almost 70 percent in Lowell, outpacing area wages. This has an even greater impact in low- and moderate-income areas, with populations that earn smaller wages. Financial literacy is important, but the contact noted that next steps beyond basic budgeting will help clients and residents build wealth.

Credit and Community Development Needs and Opportunities

Examiners considered information gathered from the community contact, The credit union, and available economic data to determine the primary credit needs of the assessment area. Based on this information, examiners determined that the community's primary credit need is affordable housing and financial literacy for low- and moderate-income individuals.

CONCLUSIONS ON PERFORMANCE CRITERIA

LENDING TEST

Merrimack Valley Credit Union demonstrated High Satisfactory performance under the Lending Test. The following sections summarize the credit union's overall performance under each criterion.

Loan-to-Share Ratio

The average net loan-to-share ratio for the last eight quarters is reasonable given the institution's size, financial condition, and assessment area credit needs. The credit union's net LTS ratio, as calculated from the NCUA 5300 Quarterly Call Report data, averaged 72.5 percent over the past nine calendar quarters from June 30, 2021, through March 31, 2023.

The LTS ratio rose from 67.3 percent, as of June 30, 2021, to a high of 77.3 percent as of December 31, 2022. Loan growth contributed to these percentages as a combination of credit union efforts and increasing home and used auto prices. Loans grew approximately 21.1 percent over the evaluation period, while shares grew approximately 7.1 percent

The credit union's average net LTS ratio over the previous nine quarters was compared to that of two similarly situated institutions. The institution selection is based on geographic location, lending focus and branching structure. MVCU's average net LTS ratio is below one of the institutions and comparable to the other institution used in this comparison.

Loan-to-Share (LTS) Ratio Comparison		
Institution	Total Assets as of 3/31/2023 (\$000)	Average Net LTD Ratio (%)
Merrimack Valley Credit Union	1,371,415	72.5
St. Mary's Credit Union	1,031,782	81.1
St. Anne's Credit Union	1,172,174	70.0

Assessment Area Concentration

The credit union made a substantial majority of home mortgage loans, by number and dollar volume, within its assessment area. The following table illustrates the credit union's lending inside and outside of the assessment area.

Lending Inside and Outside of the Assessment Area										
Loan Category	Number of Loans				Total	Dollar Amount of Loans \$(000s)				Total
	Inside		Outside			Inside		Outside		
	#	%	#	%		\$	%	\$	%

Source: Credit Union Data

Geographic Distribution

The geographic distribution of loans reflects good dispersion throughout the assessment area, particularly to low-or moderate-income geographies in the assessment area. The credit union’s performance in home mortgage lending supports this conclusion. Examiners focused on the number and percentage of loans in low- and moderate-income census tracts.

In 2021, lending in low-income census tracts was above the percentage of owner-occupied units in the area and aggregate performance. The credit union’s 2022 performance fell by number and percentage but remained above the demographic and aggregate comparators.

The credit union’s performance in moderate-income census tracts was above aggregate performance in 2021 and the demographic of owner-occupied housing. The credit union’s 2022 performance in moderate-income census tracts was comparable by number and percentage. Performance remained above the aggregate lending in 2022 and the demographic of owner-occupied housing in moderate-income census tracts.

Geographic Distribution of Home Mortgage Loans						
Tract Income Level	% of Owner-Occupied Housing Units	Aggregate Performance % of #	#	%	\$(000s)	%

Borrower Profile

The distribution of borrowers reflects, given the product lines offered by the institution, good penetration among members of different income levels. This is supported by the credit union’s good performance of lending to low- and moderate-income borrowers.

Home Mortgage

The credit union’s 2021 lending to low-income borrowers was double aggregate performance. In 2022, The credit union’s lending to low-income borrowers fell by number and fell slightly by percentage but remained above the aggregate lending percentage. Similarly, the credit union’s lending to moderate-income borrowers in 2021 exceeded the aggregate lending level. Performance in 2022 fell by both number and percentage among moderate-income borrowers but remained above the aggregate lending levels.

In 2021, the aggregate performance of all lenders, including Merrimack Valley Credit Union, was significantly below the percentage of families categorized as low-income, the majority of which have an annual income of less than \$69,350. Whereas the average loan amount originated for a single-family residential purchase in 2022 was \$520,128. This data, coupled with around

6.3 percent of families in the assessment area falling below the poverty line, suggests a large percentage of low-income families would not meet the underwriting standards to repay the average loan amount. Moderate-income families earning over \$110,960 may be able to afford a home in the area, which may explain why the institution consistently exceeds the demographic of moderate-income families.

Distribution of Home Mortgage Loans by Borrower Income Level

Discriminatory or Other Illegal Credit Practices Review

Examiners did not identify any evidence of discriminatory or other illegal credit practices; therefore, this consideration did not affect the credit union’s overall CRA rating.

Response to Complaints

The Division of Banks provides comments regarding the institution’s fair lending policies and procedures pursuant to Regulatory Bulletin 1.3-106. A review of the credit union’s public comment file indicated the credit union received no complaints pertaining to the institution’s CRA performance since the previous examination.

Fair Lending Policies and Procedures

The fair lending review was conducted in accordance with the Federal Financial Institutions Examination Council (FFIEC) Interagency Fair Lending Examination Procedures. Based on these procedures, the credit union maintains a reasonable record relative to fair lending policies and practices.

Minority Application Flow

The credit union's HMDA LARs for 2021 and 2022 were reviewed to determine if the application flow from the different racial groups within the credit union's assessment area was reflective of the assessment area's demographics.

According to the 2020 ACS Census Data, the credit union's assessment area contained a total population of 6,923,773 individuals of which 31.7 percent are minorities. The minority population represented is 6.7 percent Black/African American, 7.1 percent Asian, 0.1 percent Pacific Islander, 0.4 percent American Indian/Alaskan Native, and 7.1 percent other. Approximately 12.2 percent of the population is Hispanic or Latino.

The credit union's level of lending in 2021 was compared with that of the 2021 aggregate lending performance. The credit union's activity in 2022 was also evaluated compared to aggregate performance of the same year. The comparison of this data assists in deriving reasonable expectations for the rate of applications the credit union received from minority home mortgage loan applicants. Refer to the table below for information on the credit union's minority application flow as well as the aggregate lenders in the credit union's assessment area.

MINORITY APPLICATION FLOW						
RACE	Credit Union 2021 HMDA		2021 Aggregate Data	Credit Union 2022 HMDA		2022 Aggregate Data
	#	%	%	#	%	%
American Indian/ Alaska Native	0	0.0	0.2	1	0.1	0.3
Asian	11	1.3	5.9	14	1.5	6.2
Black/ African American	11	1.3	4.6	12	1.2	5.4
Hawaiian/Pacific Islander	2	0.2	0.2	1	0.1	0.2
2 or more Minority	0	0.0	0.1	0	0.0	0.2
Joint Race (White/Minority)	6	0.7	1.5	13	1.3	1.7
Total Racial Minority	30	3.5	12.5	41	4.2	14.0
White	699	81.6	62.4	801	82.7	62.4
Race Not Available	128	14.9	25.1	127	13.1	23.6
Total	857	100.0	100.0	969	100.0	100.0
ETHNICITY						
Hispanic or Latino	108	12.6	6.0	132	13.6	7.3
Joint (Hisp/Lat /Not Hisp/Lat)	12	1.4	1.2	19	2.0	1.4
Total Ethnic Minority	24	14.0	7.2	151	15.6	8.7
Not Hispanic or Latino	596	69.5	68.0	691	71.3	68.4
Ethnicity Not Available	141	16.5	24.8	127	13.1	22.9
Total	857	100.0	100.0	969	100.0	100.0

In 2021, The credit union received 857 HMDA reportable loan applications within its assessment area. Of these applications, 3.5 percent were received from racial minority applicants. This was below aggregate performance of 12.5 percent of its applications from racial minority individuals. The credit union's racial minority application flow was comparable in 2022 at 4.2 percent, a slight growth in number and percentage. This performance was below the aggregate racial minority application flow.

In 2021, The credit union's percent of all applications from ethnic groups of Hispanic origin within its assessment area almost doubled the aggregate minority application flow. The credit union's strong performance continued into 2022 and remained above the aggregate ethnic minority application flow.

The credit union's minority application flow in 2021 and 2022 reflect a racial minority application flow below the aggregate. One factor contributing to the difference is the institution's absence in Suffolk and Middlesex Counties during 2022. The municipalities in these two counties account for half of the minority population and about 42.7 percent of the racial minority application flow received from aggregate lenders in the assessment area. The aggregate markets larger proportion of lending activity correlates to a difference in minority application flow. Conversely, the credit union's ethnic minority application flow exceeds the aggregate measures, which corresponds to a strong presence in Lawrence and municipalities in the Providence MSA.

However, the credit union's marketing and 2023 branching strategy reflect efforts to make credit accessible to areas with larger minority populations (i.e. Boston, Worcester, and Middlesex municipalities). The recent merger has expanded branch presence in Suffolk, Worcester and Middlesex Counties. The credit union employs individuals able to provide translation assistance in several languages. Additionally, the credit union conducts periodic monitoring of its lending practices to control fair lending risk.

Considering the demographic composition of the assessment area, comparisons to aggregate data, and the credit union's fair lending controls, The credit union's minority application flow reflects adequate performance.

COMMUNITY DEVELOPMENT TEST

Merrimack Valley Credit Union demonstrated good responsiveness to the assessment area's community development needs through community development services, qualified investments, and community development loans. The credit union opted to provide its record of community development loans and investments for CRA consideration, which both grew substantially from the prior evaluation. Examiners also considered the institution's capacity and the need and availability of such opportunities.

Community Development Services

During the evaluation period, credit union employees provided 68 instances of financial expertise or technical assistance to community development organizations within its assessment area. The community development services represent a combination of board involvement, financial education, and community outreach. The chart below illustrates the majority of activities support community services to low and moderate-income individuals and economic development throughout the review period.

Community Development Services

YTD 2023	0	22	3	0	25
Total	0	64	4	0	68

Source: Credit Union Data

The following are examples of community development services provided by the credit union and its staff.

- Entrepreneurship for All (EforAll)***—A nonprofit organization that partners with communities nationwide to help under-represented individuals successfully start and grow a business through training, mentorship, and networking. Massachusetts programs are delivered in the communities of the Merrimack Valley to the south coast of Cape Cod, New Bedford and Fall River. Services are available in both English and Spanish. The Credit Union’s Senior Accountant serves as a Mentor for EForAll. In addition, the credit union is further responsive with financial contributions benefitting multiple portions of the assessment area.
- Emmaus***—The organization serves those in need with housing and support services for adults and families in the Merrimack Valley, North Shore communities of Massachusetts and in Southern New Hampshire. The organization also offers homelessness prevention, rehousing and stabilization, and career services. The Sr. Vice President of Marketing serves on the Board of Emmaus. The Credit Union is further responsive with an annual contribution to support Emmaus’ mission.
- South Eastern Economic Development Corporation (SEED)*** - SEED is a regional nonprofit economic development corporation with the mission of empowering entrepreneurs, strengthening local economies, and creating jobs by financing all types of small businesses in Massachusetts and Rhode Island. Executive Vice President and Chief Lending Officer continues a commitment on the Board of Directors for SEED.

Other Services

- **Banzai Financial Literacy** – MVCU sponsored 4 schools through the Banzai Educational program. This program provides teachers and students financial literacy programs at no cost. Of the 4 schools, 3 are in moderate-income census tracts in the towns of Methuen and Haverhill. Financial literacy topics include saving money, interest rate of return, and savings for a future goal. Courses are available to students in both English and Spanish.
- **Branches-** The branch distribution supports accessibility to areas of economic need and low and moderate-income geographies.

There are several opportunity zones within the credit union’s assessment area. Opportunity zones are federal, and state designated areas identified as areas of economic need, with many opportunity zones having the lowest median family income within MA. The credit union operates three branches in Lawrence, Haverhill and Fairhaven in opportunity zones.

The credit union’s branches are also distributed throughout out low and moderate-income census tracts. Lawrence, Haverhill, Methuen and Seabrook, NH branches are in low-income tracts. The Quincy branch is situated in a moderate-income census tract.

Lastly, the credit union is a member of a Shared Branch Network. It is a shared financial delivery channel created by credit unions to provide members with convenient hours and locations. Shared Branching allows members within its network to access and do limited transactions through a network of participating credit unions worldwide. Examples of such transactions include, but are not limited to, balance inquiries, share to share transfers, deposits, withdrawals, check cashing, statement printouts, and purchasing of monetary instruments such as bank checks, money orders, and traveler checks.

Community Development Loans

During the evaluation period, Merrimack Valley Credit Union originated 32 community development loans for approximately \$18.6 million. The activity represents an increase since the previous evaluation when no community development loans were noted. The credit union’s financial contributions primarily support economic development by financing small businesses.

Community Development Loans

Source: Credit Union Data

The following are notable examples of community development loans:

- The credit union originated one loan with a revitalization loan fund in 2021 in Lawrence MA. The purpose of the Loan fund is to support small businesses with additional avenues of credit access. The fund also revitalizes a predominantly low- and moderate-income area. The loan amount totaled \$100,000.
- The credit union originated a loan to a small business located in Barnstable County totaling \$7 million. The purpose of the loan was to finance two fast food restaurants within the assessment area. The financing will create jobs and likely benefit low- and moderate-income individuals in the work force. The loan was originated in 2022
- The credit union financed the purchase of an eight-unit residential property in Lawrence MA. The eight units maintain rents likely to be occupied by low- or moderate-income individuals in the area based on HUD Fair Market rent levels. The loan was originated in 2022 and totals \$907,500. This loan supports affordable housing for low- and moderate-income individuals.
- The credit union originated a loan in 2022 totaling \$72,500. The purpose of the loan was to purchase a vehicle for a small business located in a moderate-income census tract in Lawrence MA. This loan improves employment for individuals located in a moderate-income census tract, thereby supporting economic development in the area.

Community Development Investments

During the evaluation period, Merrimack Valley Credit Union donated \$273,795 in charitable contributions. Of this amount, 33 donations totaling \$204,085 were considered qualified for CRA. The dollar amount of donation activity represents an increase in qualified activities since the previous evaluation totaling \$186,707. The credit union’s financial contributions support community development services to low and moderate – income individuals. Additionally, financial contributions are aligned with the credit union’s CRA strategic goals of supporting literacy events and workshops to members, to low and moderate-income areas, and within school systems.

Source: Credit Union Data

The following are notable examples of qualified donations:

- ***Lawrence Partnership***-The Partnership is a collaboration of business and civic leaders committed to building a local economy that benefits all people in Lawrence by helping to grow businesses. During the examination period, the credit union's financial contributions supported the mission of the Lawrence Partnership. Additionally, the credit union President and CEO serves on the Board of the Lawrence Partnership.
- ***Family Services of Merrimack Valley***- Family Services empowers, nurtures and supports children and families through life's challenges to help them reach their full potential. The credit union's contribution supports programs to low and moderate-income families in the entire Merrimack Valley region of Massachusetts.
- ***Greater Lawrence Family Health Center***- During the exam period, the credit union supported programs and services at Greater Lawrence Family Health Center. The financial contributions qualify for CRA credit as Greater Lawrence Family Health Center is a Federally Qualified Health Center (FQHC) dedicated to providing preventive, primary and non-emergent urgent care to all, regardless of financial circumstance or health insurance coverage status.

GLOSSARY

Aggregate Lending: The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

American Community Survey (ACS): A nationwide United States Census survey that produces demographic, social, housing, and economic estimates in the form of five-year estimates based on population thresholds.

Area Median Income: The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

Assessment Area: A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

Census Tract: A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

Combined Statistical Area (CSA): A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

Community Development: For loans, investments, and services to qualify as community development activities, their primary purpose must:

- (1) Support affordable housing for low- and moderate-income individuals;
- (2) Target community services toward low- and moderate-income individuals;
- (3) Promote economic development by financing small businesses or farms; or
- (4) Provide activities that revitalize or stabilize low- and moderate-income geographies, designated disaster areas, or distressed or underserved nonmetropolitan middle-income geographies.

Community Development Corporation (CDC): A CDC allows banks and holding companies to make equity type of investments in community development projects. Bank CDCs can develop innovative debt instruments or provide near-equity investments tailored to the development needs of the community. Bank CDCs are also tailored to their financial and marketing needs. A CDC may purchase, own, rehabilitate, construct, manage, and sell real property. Also, it may make equity or debt investments in development projects and in local businesses. The CDC activities are expected to directly benefit low- and moderate-income groups, and the investment dollars should not represent an undue risk on the banking organization.

Community Development Financial Institutions (CDFIs): CDFIs are private intermediaries (either for profit or nonprofit) with community development as their primary mission. A CDFI facilitates the flow of lending and investment capital into distressed communities and to individuals who have been unable to take advantage of the services offered by traditional financial institutions. Some basic types of CDFIs include community development banks, community development loan funds, community development credit unions, micro enterprise funds, and community development venture capital funds.

A certified CDFI must meet eligibility requirements. These requirements include the following:

- Having a primary mission of promoting community development;
- Serving an investment area or target population;
- Providing development services;
- Maintaining accountability to residents of its investment area or targeted population through representation on its governing board of directors, or by other means;
- Not constituting an agency or instrumentality of the United States, of any state or political subdivision of a state.

Community Development Loan: A loan that:

- (1) Has as its primary purpose community development; and
- (2) Except in the case of a wholesale or limited purpose bank:
 - (i) Has not been reported or collected by the bank or an affiliate for consideration in The credit union's assessment area as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described in Appendix A to Part 203 of this title); and
 - (ii) Benefits The credit union's assessment area(s) or a broader statewide or regional area including The credit union's assessment area(s).

Community Development Service: A service that:

- (1) Has as its primary purpose community development;
- (2) Is related to the provision of financial services; and
- (3) Has not been considered in the evaluation of The credit union's retail banking services under § 345.24(d).

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

Core Based Statistical Area (CBSA): The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

Distressed Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as distressed if it is in a county that meets one or more of the following triggers:

- (1) An unemployment rate of at least 1.5 times the national average;
- (2) A poverty rate of 20 percent or more; or
- (3) A population loss of 10 percent or more between the previous and most recent decennial census or a net migration loss of 5 percent or more over the 5-year period preceding the most recent census.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into “male householder” (a family with a male householder and no wife present) or “female householder” (a family with a female householder and no husband present).

FFIEC-Estimated Income Data: The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

Full-Scope Review: A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (for example, geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (for example, innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

Home Mortgage Loans: Includes closed-end mortgage loans or open-end line of credits as defined in the HMDA regulation that are not an excluded transaction per the HMDA regulation.

Housing Unit: Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

Limited-Scope Review: A limited scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area.

Performance under applicable tests is often analyzed using only quantitative factors (for example, geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

Low-Income: Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

Low Income Housing Tax Credit: The Low-Income Housing Tax Credit Program is a housing program contained within the Internal Revenue Code of 1986, as amended. It is administered by the U.S. Department of the Treasury and the Internal Revenue Service. The U.S. Treasury Department distributes low-income housing tax credits to housing credit agencies through the Internal Revenue Service. The housing agencies allocate tax credits on a competitive basis.

Developers who acquire, rehabilitate, or construct low-income rental housing may keep their tax credits. Or, they may sell them to corporations or investor groups, who, as owners of these properties, will be able to reduce their own federal tax payments. The credit can be claimed annually for ten consecutive years. For a project to be eligible, the developer must set aside a specific percentage of units for occupancy by low-income residents. The set-aside requirement remains throughout the compliance period, usually 30 years.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Median Income: The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

Metropolitan Division (MD): A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area (MSA): CBSA associated with at least one urbanized area having a population of at least 50,000. The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Micropolitan Statistical Area: CBSA associated with at least one urbanized area having a population of at least 10,000, but less than 50,000.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

Multi-family: Refers to a residential structure that contains five or more units.

Nonmetropolitan Area (also known as non-MSA): All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Qualified Investment: A lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

Rated Area: A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

Rural Area: Territories, populations, and housing units that are not classified as urban.

Small Business Investment Company (SBIC): SBICs are privately-owned investment companies which are licensed and regulated by the Small Business Administration (SBA). SBICs provide long-term loans and/or venture capital to small firms. Because money for venture or risk investments is difficult for small firms to obtain, SBA aids SBICs to stimulate and supplement the flow of private equity and long-term loan funds to small companies. Venture capitalists participate in the SBIC program to supplement their own private capital with funds borrowed at favorable rates through SBA's guarantee of SBIC debentures. These SBIC debentures are then sold to private investors. An SBIC's success is linked to the growth and profitability of the companies that it finances. Therefore, some SBICs primarily assist businesses with significant growth potential, such as new firms in innovative industries. SBICs finance small firms by providing straight loans and/or equity-type investments. This kind of financing gives them partial ownership of those businesses and the possibility of sharing in the companies' profits as they grow and prosper.

Small Business Loan: A loan included in "loans to small businesses" as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$1 million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

Small Farm Loan: A loan included in “loans to small farms” as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

Underserved Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as underserved if it meets criteria for population size, density, and dispersion indicating the area’s population is sufficiently small, thin, and distant from a population center that the tract is likely to have difficulty financing the fixed costs of meeting essential community needs.

Upper-Income: Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

Urban Area: All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, “urban” consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).

“Urban” excludes the rural portions of “extended cities”; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.

PERFORMANCE EVALUATION DISCLOSURE GUIDE

Massachusetts General Laws Chapter 167, Section 14, as amended, and the Uniform Interagency Community Reinvestment Act (CRA) Guidelines for Disclosure of Written Evaluations require all financial institutions to take the following actions within 30 business days of receipt of the CRA evaluation of their institution:

- 1) Make its most current CRA performance evaluation available to the public;
- 2) At a minimum, place the evaluation in the institution's CRA public file located at the head office and at a designated office in each assessment area;
- 3) Add the following language to the institution's required CRA public notice that is posted in each depository facility:

"You may obtain the public section of our most recent CRA Performance Evaluation, which was prepared by the Massachusetts Division of Banks, at 500 Merrimack St, Lawrence, Massachusetts 01843."

[Please Note: If the institution has more than one assessment area, each office (other than off-premises electronic deposit facilities) in that community shall also include the address of the designated office for that assessment area.]

- 4) Provide a copy of its current evaluation to the public, upon request. In connection with this, the institution is authorized to charge a fee which does not exceed the cost of reproduction and mailing (if applicable).

The format and content of the institution's evaluation, as prepared by its supervisory agencies, may not be altered or abridged in any manner. The institution is encouraged to include its response to the evaluation in its CRA public file.

BrightBridge Credit Union

COMMUNITY REINVESTMENT ACT STATEMENT

Updated January 1, 2026

Pursuant to the provision of the Community Reinvestment Act (CRA), the Management of BrightBridge Credit Union hereby adopts the following CRA STATEMENT.

BrightBridge Credit Union Membership is limited to persons who reside, work, or attend school in the following Municipality Counties for each state, listed below:

Connecticut Counties: Hartford and Tolland

Massachusetts Counties: Barnstable, Bristol, Essex, Franklin, Hampden, Hampshire, Middlesex, Norfolk, Plymouth, Suffolk, and Worcester County.

New Hampshire Counties: Hillsborough and Rockingham.

Rhode Island Counties: Kent and Providence.

Including:

- Employees, families and contract-member growers of Ocean Spray Cranberries, Inc.
- Employees and families in RTN SEG limited-service locations.
- Employees and families of Cabot Corporation.

Members and volunteers of religious, civic or charitable organizations having their principal place of business within the municipalities listed above; and

Spouses of persons who died while within the field of membership of this credit union, employees of this credit union, and immediate family members of persons within the field of membership of this credit union.

The term “immediate family member” shall mean any person living in the same household as the member as well as spouses, children, siblings, parents, grandparents, grandchildren, in-laws, and domestic partners.

The term “religious, civic or charitable organization” shall mean any corporation, trust, unincorporated association, or other type of organization exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code (Title 26 of the United States Code).

Persons who are not eligible for membership may have joint accounts with members of the credit union for the purpose of depositing and withdrawals only.

BrightBridge Credit Union offers a wide range of credit services:

- Real Estate Loans, both First and Second Mortgages.
- Commercial Loans; Construction Loans.
- Manufactured Home Loans.
- Personal Secured & Unsecured Loans.
- Student Loans.
- New & Used Automobile Loans.
- Home Improvement Loans.
- Boat Loans, both new and used.
- Recreational Vehicle Loans.
- Secured and Unsecured VISA cards.

In addition to this wide range of products, we participate with Fannie Mae initiatives lending programs to assist homebuyers with low down payments and community lending programs.

The Management Team meets on a regular basis to review and discuss the Credit Union's CRA efforts and new ideas to expand those efforts.

The Credit Union's Board of Directors has instructed, among other initiatives, to pursue contact with organizations and individuals, for the purpose of effectively ascertaining the credit needs of its field of membership and Assessment Area.

Develop credit products, including those with flexible lending criteria and/or government lending programs to market its credit services to all segments of its field of membership, including low and moderate-income and minority areas. Participate, when possible, in community lending forums to increase consumer's awareness of the lending process; and, to help applicants in need of understanding the loan application process and when appropriate suggesting the availability of credit counseling.

Officers of the Credit Union have attended and will continue to attend appropriate forums where education and assistance to the public with regard to obtaining mortgages and the mortgage application process.

BrightBridge Credit Union

- Participates in community events and offers scholarships to local High School Graduates.
- The Credit Union is community-oriented and welcomes the opportunity to discuss ways to increase our service to the community.

	CRA New Definitions		
"Affiliate	The FDIC and the OCC are retaining the current definition of "affiliate" in their respective CRA regulations, which reads as follows: "Affiliate means any company that controls, is controlled by, or is under common control with another company. The term 'control' has the same meaning given to that term in 12 U.S.C. 1841(a)(2), and a company is under common control with another company if both companies are directly or indirectly controlled by the same company.		
affordable housing	mean activities described in proposed § __.13(b). See the section-by-section analysis of § __.13(b) for a detailed discussion of affordable housing. The agencies did not receive any comments on the proposed "affordable housing" definition and adopt it as proposed in the final rule.		
Area Median Income	(1) the median family income for the MSA, if an individual, family, household, or census tract is located in an MSA that has not been subdivided into metropolitan divisions, or for the metropolitan division, if an individual, family, household, or census tract is located in an MSA that has been subdivided into metropolitan divisions; or (2) the statewide nonmetropolitan median family income, if an individual, family, household, or census tract is located in a nonmetropolitan area.		
Assets	total assets as reported in Schedule RC of the Consolidated Reports of Condition and Income (Call Report), as filed under 12 U.S.C. 161 and 1464 or 1817, or as reported in Schedule RAL of the Report of Assets and Liabilities of U.S. Branches and Agencies of Foreign Banks (Report of Assets and Liabilities), as filed under 12 U.S.C. 1817 or and 3102(b) or (c)(5), as applicable. Although the agencies did not propose this definition, they have added it to the final rule to clarify the intended meaning of this term in the CRA regulations.		
Assessment Area	The agencies proposed to replace "assessment area" with three new terms in proposed § __.12: "facility-based assessment area," "retail lending assessment area," and "outside retail lending area," as these new terms are used in the proposal. These new definitions are discussed below. The agencies did not receive any comments concerning the removal of the "assessment area" definition and have removed this term in the final rule.		
Bank	FDIC, BOARD, AD OCC-Different definitions		
Bank Asset-Size Definitions	<u>EXcluding Limited Purpose Banks</u> final rule, "small bank" means a bank, less than \$600 million as of December 31 in either of the prior two calendar years. "Intermediate bank" means a bank, had assets of at least \$600 million as of December 31 in both of the prior two calendar years and less than \$2 billion as of December 31 in either of the prior two calendar years. "Large bank" means a bank, that had assets of at least \$2 billion as of December 31 in both of the prior two calendar years. For all three definitions, the agencies adjust and publish the asset-size thresholds annually, based on the year-to-year change in the average of the CPI-W, not seasonally adjusted, for each 12-month period ending in November, with rounding to the nearest million.	"super large - banks with greater than \$50 billion in assets "mega bank"-assets greater than \$100 billion	
Combination of Loan Dollars and Loan Count	For the Retail Lending Test in particular, the combined loan dollars and loan count approach for various calculations better tailors the Retail Lending Test to accommodate individual bank business models.		
Community Development	the final rule. Final § __.13, as discussed in the section-by-section analysis of § __.13, describes activities that constitute community development, as proposed, but is retitled "Consideration of community development loans, community development investments, and community development services."		

CDFI	<p>person (other than an individual) that: (1) has a primary mission of promoting community development; (2) serves an investment area or targeted population; (3) provides development services in conjunction with equity investments or loans, directly or through a subsidiary or affiliate; (4) maintains, through representation on its governing board or otherwise, accountability to residents of its investment area or targeted population; and (5) is not an agency or instrumentality of the United States, or of any State or political subdivision of a State. See 12 U.S.C. 4702(5)(A).</p>		
Community Development Investment	<p>As discussed, the change in the final rule from “qualified investment” to “community development investment” is a change in nomenclature only; for purposes of simplifying the discussion, this SUPPLEMENTARY INFORMATION hereafter refers to “qualified investments” under the current rule as “community development investments.</p> <p>Accordingly, the final rule defines “community development loan” to mean “a loan, including a legally binding commitment to extend credit, such as a standby letter of credit, that supports community development, as described in § __.13. A community development loan does not include any home mortgage loan considered under the Retail Lending Test in § __.22, with the exception of one-to-four family home mortgage loans for rental housing with affordable rents in nonmetropolitan areas under § __.13(b)(3).”</p> <p>Community Development</p>	<p>The changes regarding consideration of certain home mortgage loans, small business loans, and small farm loans as community developments loans are discussed in more detail in the section-by-section analyses of § __.13(b) and (c).</p>	
community development services,”	<p>the performance of volunteer services by a bank’s or affiliate’s board members or employees, performed on behalf of the bank, where those services: (1) support community development, as described in § __.13; and (2) are related to the provision of financial services, which include credit, deposit, and other personal and business financial services, or services that reflect a board member’s or employee’s expertise at the bank or affiliate, such as human resources, information technology, and legal services.</p>	<p>the agencies determined that references to specific programs, like the suggestion to identify Volunteer Income Tax Assistance sites as related to the provision of financial services, in the text of the regulation could be overly limiting and possibly inconsistent with the durability of the rule over time. Free tax preparation is likely to qualify as “related to the provision of financial services” and may receive community development service consideration if it otherwise meets the definition of community development services. FOR EXAMPLE: the bank essentially donates those hours because the bank employee is performing economic development for the small business, rather than performing that employee’s regular bank duties.</p>	
Consumer Loan	<p>loan to one or more individuals for household, family, or other personal expenditures and that is one of the following types of loans: (1) automobile loan as defined in Schedule RC-C of the Call Report; (2) credit card loan, defined consistent with “credit card” in Schedule RC-C of the Call Report; (3) other revolving credit plan, as defined in Schedule RC-C of the Call Report; and (4) other consumer loan, as defined in Schedule RC-C of the Call Report.</p> <p>With this change, the agencies made a technical edit to no longer exclude home mortgage loans, multifamily loans, small business loans, and small farm loans because these loans would not otherwise fall within the final definition of “consumer loan.”</p>	<p>loans with how banks report those classes of loans on the Call Report. As a result, “automobile loan,” “credit card loan,” “other revolving credit plan,” and “other consumer loan” are now defined as those terms are defined in Schedule RC-C of the Call Report and do not include specific examples.142</p>	

Depository Institution & Deposits	The final rule replaces those references to the term “bank” with the term “depository institution” or “large depository institution,” The agencies have elected to maintain deposits data collection from banks with assets greater than \$10 billion and decline to expand this collection requirement to other banks. The agencies believe the collection of deposits data is important, but that data collection should be limited to large banks with assets greater than \$10 billion due to the burden associated with this requirement.	1) banks that collect, maintain, and report deposits data; and (2) banks that do not collect, maintain, and report that data. The agencies elected to simplify the definition of “deposits” in response to comments about both the overall complexity of the proposal and the complexity of the provisions related to deposits data collection and reporting. Further, because the final rule provides that institutions that collect and maintain deposits data, whether required or opting to do so, must also report deposits data, the category for banks that collect and maintain but do not report is unnecessary. By removing this category, the agencies believe the final rule provides a less complex and more workable definition. The agencies are also making a technical change to replace “U.S.” with “United States.”	Accordingly, the definition of “deposits” in the final rule provides that: (1) for banks that collect, maintain, and report deposits data as provided in § __.42, “deposits” means deposits in domestic offices of individuals, partnerships, and corporations, and of commercial banks and other depository institutions in the United States as defined in Schedule RC-E of the Call Report; deposits does not include U.S. Government deposits, State and local government deposits, domestically held deposits of foreign governments or official institutions, or domestically held deposits of foreign banks or other foreign financial institutions; and (2) for banks that do not collect, maintain, and report deposits data as provided in § __.42, “deposits” has the same meaning as in the Summary of Deposits Reporting Instructions.
Deposit Location	(1) for banks that collect, maintain, and report deposits data as provided in § __.42, the address on file with the bank for purposes of the Customer Identification Program required by 31 CFR 1020.220 or another documented address at which the depositor resides or is located; and (2) for banks that do not collect, maintain, and report deposits data as provided in § __.42, the county of the bank facility to which the deposits are assigned in the Summary of Deposits data.		
Digital Delivery System	mean a channel through which banks offer retail banking services electronically		
Dispersion of Retail Lending	to mean how geographically diffuse or widely spread such lending is across census tracts of different income levels within a facility-based assessment area, retail lending assessment area, or outside retail lending area.		
Distressed or Underserved Nonmetropolitan Middle-Income Census Tract	community development” includes activities that revitalize or stabilize “distressed or underserved nonmetropolitan middle-income geographies” as designated by the agencies based on: (1) rates of poverty, unemployment, and population loss; or (2) population size, density, and dispersion. Further, this provision states that activities revitalize and stabilize geographies designated based on population size, density, and dispersion if they help to meet essential community needs, including the needs of low- and moderate-income individuals. ¹⁵³ replacing the term “geography” with the term “census tract,two technical changes, referencing the official name of the Board, and replacing the word “migration” with “population.”	As proposed, “distressed or underserved nonmetropolitan middle-income census tract” would mean a census tract publicly designated as such by the agencies and compiled in a list published annually by the FFIEC. The agencies would designate a nonmetropolitan middle-income census tract as distressed if it is in a county that has: (1) an unemployment rate of at least 1.5 times the national average; (2) a poverty rate of 20 percent or more; or (3) a population loss of 10 percent or more between the previous and most recent decennial census or a net migration loss of five percent or more over the five-year period preceding the most recent census.	
Distribution of Retail Lending	refer to how retail lending is apportioned among borrowers of different income levels, businesses or farms of different sizes, or census tracts of different income levels.		
Facility-based assessment area	ATM, does not constitute a bank facility because such ATMs are owned and operated by a third party and are not operated exclusively for the bank		

High Opportunity Area	to align with the FHFA’s definition provides the best option for the purposes of the impact and responsiveness factor in § __.15(b)(7) because, as defined by FHFA, these areas are intended to capture areas that provide strong opportunities for low- and moderate-income individuals, families, and households. The definition captures both DDAs and also areas designated as High Opportunity Areas where the poverty rate is low. The agencies agree that increasing affordable housing opportunities in these areas helps to provide low- or moderate-income individuals, families, and households with more choices to live in neighborhoods with economic opportunities.		
Income Level	1) Low-income, which means: (i) for individuals, families, or households, income that is less than 50 percent of the area median income; or (ii) for a census tract , a median family income that is less than 50 percent of the area median income.	Change from geography to census tract Moderate-income 50 -80% Middle-income 80-120% Upper- income 120% or more	
	(2) Moderate-income, which means: (i) for individuals, families, or households, an income that is at least 50 percent and less than 80 percent of the area median income; or (ii) for a census tract, a median family income that is at least 50 percent and less than 80 percent of the area median income.		
	(3) Middle-income, which means: (i) for individuals, families, or households, an income that is at least 80 percent and less than 120 percent of the area median income; or (ii) for a census tract, a median family income that is at least 80 percent and less than 120 percent of the area median income.		
	(4) Upper-income, which means: (i) for individuals, families, or households, an income that is 120 percent or more of the area median income; or (ii) for a census tract, a median family income that is 120 percent or more of the area median income.		
Loan Location	(1) a consumer loan is located in the census tract where the borrower resides at the time that the borrower submits the loan application; (2) a home mortgage loan or a multifamily loan is located in the census tract where the property securing the loan is located; and (3) a small business loan or small farm loan is located in the census tract where the main business facility or farm is located or where the borrower will otherwise apply the loan proceeds, as indicated by the borrower	replaced the term “consumer” with the term “borrower” included multifamily loan in the second prong to clarify the location of multifamily loans, the third prong to remove the passive tense in one clause	
Loan Production Office	agencies are removing this definition in the final rule as proposed		
Low Branch Access Census Tract; Very Low Branch Access Census Tract	Not considering the number of branches now.		
Low-Cost Education Loan	to mean any private education loan, as defined in section 140(a)(7) of the Truth in Lending Act (15 U.S.C. 1650(a)(8)) (including a loan under a State or local education loan program), originated by the bank for a student at an “institution of higher education,” as generally defined in sections 101 and 102 of the Higher Education Act of 1965 (20 U.S.C. 1001 and 1002) and the 173 See proposed § __.23(b)(1)(i)(C)(1). 174 See proposed § __.23(c)(1).	This aspect of the proposal was intended to incorporate into the CRA regulations the statutory requirement that the agencies consider low-cost education loans provided to low-income borrowers as a factor in evaluating a bank’s record of helping to meet the credit needs of its entire community. See 12 U.S.C. 2903(d). For further discussion, see the section-by-section analysis of § __.23.	
Low-Income Credit Union (LICU)	The agencies proposed to add a definition for “low-income credit union (LICU)” in support of various proposed provisions related to community development. As discussed further in the section-by-section analysis of § __.13, Consideration of community development loans, investments, and services, the agencies proposed to create a category of “community development” that would comprise activities with MDIs, WDIs, LICUs, or CDFIs. ¹⁷⁵ In addition, the agencies proposed to consider, as a factor in evaluating the impact and responsiveness of any community development activity, whether the activity supports an MDI, WDI, LICU, or Treasury Department-certified CDFI. ¹⁷⁶ The agencies	The agencies proposed to define LICU as having the same meaning given to that term in NCUA’s regulations, 12 CFR 701.34. Twelve CFR 701.34 provides, in part, that based on data obtained through examinations, the NCUA will notify a Federal credit union that it qualifies for designation as a LICU if a majority of its membership qualify as low-income members. ¹⁷⁷	

Low-Income Housing Tax Credit (LIHTC)	to mean a Federal tax credit for housing persons of low income pursuant to section 42 of the Internal Revenue Code of 1986 (26 U.S.C. 42).		
Major Product Line	means a product line that the appropriate Federal banking agency evaluates in a particular Retail Lending Test Area, pursuant to § __.22(d)(2) and paragraphs II.b.1 and II.b.2 of appendix A of the final rule.	This definition is intended to identify the product lines with the greatest importance to the bank and its community and that, accordingly, are subject to evaluation under the Retail Lending Test.	
Majority Automobile Lender	The final rule includes a new definition for “majority automobile lender,” not included in the proposal, defined to mean a bank for which more than 50 percent of its home mortgage loans, multifamily loans, small business loans, small farm loans, and automobile loans were automobile loans, as determined pursuant to paragraph II.b.3 of appendix A. Paragraph II.b.3 of appendix A includes the provisions of the final rule that identify the banks for which evaluation of automobile lending is mandatory in each facility-based assessment area or in an outside retail lending area in which automobile lending represents a major product line.	As described in the section-by-section analysis of § __.22, a bank is considered a majority automobile lender if its automobile loans originated and purchased over the combined two-calendar-year period preceding the first year of the evaluation period exceeded 50 percent, based on a combination of loan dollars and loan count, of the bank’s lending across specified categories. Specifically, the final rule calculates the 50 percent standard based on the following loan categories: home mortgage loans;178 multifamily loans; small business loans; small farm loans; and automobile loans originated and purchased overall.	
Metropolitan Area	the term “MSA” is defined in the final rule to mean a metropolitan statistical area defined by the Director of the OMB. Accordingly, “metropolitan area” in the final rule means any MSA.	several revisions. First, the agencies are removing reference to “combined MSA” from the definition because “combined MSA” is not a term defined by the Director of the OMB. Second, the agencies are removing reference to “metropolitan division” from the definition. Metropolitan divisions are parts of certain populous MSAs, so the agencies determined that the term is not necessary and that it added complexity to separately list both terms in the “metropolitan area” definition. For example, any county in a metropolitan division would also be in an MSA. Finally, the agencies are removing the phrase “as defined by the Director of the Office of Management and Budget” from the definition.	
minority depository institution (MDI)	First, in paragraph (1), the agencies removed the parenthetical, “(i.e., donating, selling on favorable terms (as determined by the [Agency]), or making available on a rent-free basis any branch of the bank, which is located in a predominately minority neighborhood).” This language paraphrased the cited statute, 12 U.S.C. 2907(b)(1), and is not necessary. Second, the agencies made non-substantive wording changes to the definition to improve its structure and readability and to promote consistency with the statutes cited in the definition. Accordingly, the final rule defines “minority depository institution (MDI)” to mean: (1) for purposes of activities conducted pursuant to 12 U.S.C. 2907(a), “minority depository institution” as defined in 12 U.S.C. 2907(b)(1); and (2) for all other purposes: (i) a “minority depository institution” as defined in 12 U.S.C. 2907(b)(1); (ii) a “minority depository institution” as defined in section 308 of the FIRREA (12 U.S.C. 1463 note); or (iii) a depository institution considered to be a minority		
Mission-Driven Nonprofit Organization	to mean an organization described in section 501(c)(3) of the Internal Revenue Code of 1986 (26 U.S.C. 501(c)(3)) and exempt from taxation under section 501(a) of such Code that benefits or serves primarily low- or moderate-income individuals or communities, small businesses, or small farms		
Mortgage-Related Definitions	<i>Under the current CRA regulations, the agencies define “home mortgage loan” to mean a closed-end mortgage loan or an open-end line of credit as defined under 12 CFR 1003.2 (Regulation C), the CFPB’s HMDA implementing regulations, that is not an excluded transaction under 12 CFR 1003.3(c)(1) through (10) and (13).200 The agencies proposed to</i>	198 See proposed § __.13(b)(2)(ii) and (d)(1); see also 87 FR 33884, 33896 (June 3, 2022).	

	200 See current 12 CFR __.12(l). Excluded transactions under 12 CFR 1003.3(c)(1) through (10) and (13) are as follows: (1) A closed-end mortgage loan or open-end line of credit originated or purchased by a financial institution acting in a fiduciary capacity; (2) A closed-end mortgage loan or open-end line of credit secured by a lien on unimproved land; (3) Temporary financing; (4) The purchase of an interest in a pool of closed-end mortgage loans or open-end lines of credit; (5) The purchase solely of the right to service closed-end mortgage loans or open-end lines of credit; (6) The purchase of closed-end mortgage loans or open-end lines of credit as part of a merger or acquisition, or as part of the acquisition of all of the assets and liabilities of a branch office as defined in § 1003.2(c); (7) A closed-end mortgage loan or open-end line of credit, or an application for a closed-end mortgage loan or open-end line of credit, for which the		
	amend the current “home mortgage loan” definition to refer to an “open-end home mortgage loan” rather than an “open-end line of credit,” with no intent to change the meaning. The agencies also proposed to remove the cross-reference to the CFPB’s Regulation C and add new definitions for “closed-end home mortgage loan” and “open-end home mortgage loan,” which would have the same meanings given to “closed-end mortgage loan” and “open-end line of credit” in 12 CFR 1003.2(d) and (o), respectively, excluding multifamily loans as defined in proposed § __.12.		
	201 “Closed-end home mortgage loan” is defined in 12 CFR 1003.2(d) to mean an extension of credit that is secured by a lien on a dwelling and that is not an open-end line of credit under the HMDA regulations. “Open-end line of credit” is defined in 12 CFR 1003.2(o) to mean an extension of credit that is secured by a lien on a dwelling and is an open-end credit plan as defined in CFPB’s Regulation Z, 12 CFR 1026.2(a)(20), ²⁰² but without regard to whether the credit is consumer credit, as defined in 12 CFR 1026.2(a)(12), ²⁰³ is extended by a creditor, as		
	total dollar amount is less than \$500; (8) The purchase of a partial interest in a closed-end mortgage loan or open-end line of credit; (9) A closed-end mortgage loan or open-end line of credit used primarily for agricultural purposes; (10) A closed-end mortgage loan or open-end line of credit that is or will be made primarily for a business or commercial purpose, unless the closed-end mortgage loan or open-end line of credit is a home improvement loan under § 1003.2(i), a home purchase loan under § 1003.2(j), or a refinancing under § 1003.2(p); and (13) A transaction that provided or, in the case of an application, proposed to provide new funds to the applicant or borrower in advance of being consolidated in a New York State consolidation, extension, and modification agreement classified as a supplemental mortgage under New York Tax Law section 255; the transaction is excluded only if final action on the consolidation was taken in the same calendar year as final action on the new funds transaction.	201 As discussed further below, the agencies proposed to define “multifamily loan” as “a loan for a ‘multifamily dwelling’ as defined in 12 CFR 1003.2(n).” Multifamily dwelling is defined in 12 CFR 1003.2(n) as “a dwelling, regardless of construction method, that contains five or more individual dwelling units.”	
Open-end credit	consumer credit extended by a creditor under a plan in which: (1) The creditor reasonably contemplates repeated transactions; (2) The creditor may impose a finance charge from time to time on an outstanding unpaid balance; and (3) The amount of credit that may be extended to the consumer during the term of the plan (up to any limit set by the creditor) is generally made available to the extent that any outstanding balance is repaid. See 12 CFR 1003.2(o) and 12 CFR 100.1026.2(a)(20).		

Consumer credit	credit offered or extended to a consumer primarily for personal, family, or household purposes. See 12 CFR 1026.2(a)(12). defined in 12 CFR 1026.2(a)(17), 204 or is extended to a consumer, as defined in 12 CFR 1026.2(a)(11).205	The agencies proposed to add separate definitions for “closed-end home mortgage loan” and “open-end home mortgage loan,” because, as discussed further in the section-by-section analysis of § __.22, given their distinct characteristics, these types of loans would be considered separately under the proposed Retail Lending Test. The agencies’ proposed definitions of these terms are consistent with the current “home mortgage loan” definition, which cross-references 12 CFR 1003.2 to define closed-end home mortgage loans and open-end lines of credit. The agencies excluded multifamily loans from the definitions of “closed-end home mortgage loan” and “open-end home mortgage loan” because the proposal included a separate definition for “multifamily loan” that covers different transactions (as discussed below in the section-by-section analysis). This exclusion was necessary because, under the proposal, the agencies could consider multifamily loans, unlike other closed-end home mortgage loans, under the Community Development Financing Test in § __.24.206 The agencies also proposed this exclusion of	
Creditor means:	(1) A person who regularly extends consumer credit that is subject to a finance charge or is payable by written agreement in more than four installments (not including a down payment), and to whom the obligation is initially payable, either on the face of the note or contract, or by agreement when there is no note or contract.		
Consumer	a cardholder or natural person to whom consumer credit is offered or extended. extended. However, for purposes of rescission under §§ 1026.15 and 1026.23, the term also includes a natural person in whose principal dwelling a security interest is or will be retained or acquired, if that person's ownership interest in the dwelling is or will be subject to the security interest. For purposes of §§ 1026.20(c) through (e), 1026.36(c), 1026.39, and 1026.41, the term includes a confirmed successor in interest. Further, the agencies note that the exclusion of purchased closed-end home mortgage loans and open-end lines of credit from the “home mortgage loan” definition does not mean that they are not considered under the CRA regulations. For a more detailed discussion of the CRA regulations’ consideration of purchased loans, see the section-by-section analysis of final § __.22, Retail Lending Test.	multifamily loans because multifamily loans were a distinct category of retail loan which could qualify as a major product line under the Retail Lending Test in § __.22. The agencies decline to revise the excluded transactions language. As under the current CRA regulations, the agencies intend to leverage HMDA data in the final rule, i.e., data reported pursuant to 12 CFR part 1003, which allows for sufficient data for analysis while not increasing the data collection or reporting burden on these banks, as part of the CRA evaluation framework. If the agencies narrowed the number of excluded transactions as requested by the commenter, HMDA reporters would be required to produce additional data that exceeds their current HMDA reporting obligations, which would both increase burden for banks and add complexity to CRA examinations.	
	Second, the agencies have removed the specific paragraph designations in the cross-references to the HMDA definitions so that they now read “12 CFR 1003.2” instead of 12 CFR 1003.2(d) and (o) so that these cross-references remain accurate if the CFPB modifies this section in the future. Accordingly, under the final rule:		
	• “home mortgage loan” means a closed-end home mortgage loan or an open-end home mortgage loan as these terms are defined in final § __.12;		
	• “closed-end home mortgage loan” has the same meaning given to the term “closed-end mortgage loan” in 12 CFR 1003.2, excluding loan transactions set forth in 12 CFR 1003.3(c)(1) through (c)(10) and (c)(13) and multifamily loans as defined in final § __.12; and		
	• “open-end home mortgage loan” has the same meaning as given to the term “open-end line of credit” in 12 CFR 1003.2, excluding loan transactions set forth in 12 CFR 1003.3(c)(1) through (c)(10) and (c)(13) and multifamily loans as defined in final § __.12.		
Multifamily Loan	to mean an extension of credit that is secured by a lien on a “multifamily dwelling” as defined in 12 CFR 1003.2.		

Multistate MSA	an MSA that crosses a State boundary, which is the agencies' intended meaning of this term. The agencies made this revision to reflect the fact that "multistate metropolitan statistical area" is not a term defined by the Director of the OMB. Instead, the Director of OMB defines the term "MSA," and the final rule defines "MSA" by cross-referencing to this OMB definition. Second, consistent with the change discussed above under the definition of "MSA," the agencies are replacing "metropolitan statistical area" with "MSA." Thus, the resulting defined term will be "multistate MSA" instead of "multistate metropolitan statistical area." Accordingly, "multistate MSA" is defined in the final rule to mean an MSA that crosses a State boundary.		
Nationwide Area	Nationwide area" includes the entirety of the United States and its territories, and is not limited to multistate areas. The allocation of community development financing activities, including how an activity that benefits more than one State but not the entire nation will be attributed, is discussed in the section-by-section analysis of § __.24. Thus, the agencies are adopting the definition of "nationwide area" as proposed in the final rule.		
Native Land Area	the agencies have revised paragraph (4) of the definition to include any land held in trust by the United States for tribes or Native Americans or tribally-held restricted fee land. This change more clearly effectuates the agencies' intent in the proposal to include in the definition both individually- and tribally-owned restricted fee lands as well as land held in trust by the United States for both tribes and individuals. This change also aligns the definition with available BIA data, which covers both individually-held and tribally-held restricted fee and trust lands. ²¹⁵ The agencies are also removing the cross-reference to "38 U.S.C. 3765(1)(A)" in paragraph (4) as redundant. ²¹⁶ Finally, the agencies are making a technical change to paragraph (6), which covers Alaska Native villages, to use the term defined in the cited statute; as a result, the final rule references "Any Native village, as defined in 43 U.S.C. 1602(c), in Alaska."	The "Native Land Area" definition in the final rule is intended to align with existing and established Federal Indian law regarding lands and communities with unique political status. The final rule is also intended to be responsive to stakeholder feedback received at all stages of this rulemaking, indicating support for a comprehensive geographic definition of "Native Land Areas." The final definition focuses on lands and communities that, as noted by commenters, have generally experienced little or no benefits from bank access or investments.	
Nonmetropolitan Area	mean any area that is not located in an MSA. The agencies did not receive any comments concerning the "nonmetropolitan area" definition and are adopting it as proposed in the final rule.		
Operations Subsidiary or Operating Subsidiary	the FDIC and OCC are adopting the proposed definitions of "operating subsidiary." The agencies believe that the proposed definitions of "operations subsidiary" and "operating subsidiary" are sufficiently consistent based on the agencies' respective statutory authorities and mandates. In addition, the agencies do not believe these proposed definitions are too broad. If an entity meets the definition of affiliate, and not the definition of operation subsidiary or operating subsidiary, it will not be treated as an operations subsidiary or operating subsidiary under the CRA regulations. Further, the agencies elected not to change these definitions because the description of these terms in the agencies' CRA regulation should not differ from the description of these terms in other contexts.		
Other Delivery System	This may include telephone banking, bank-by-mail, or bank-at-work.		
Outside Retail Lending Area	The final rule now includes a new section that describes the bases for delineating outside retail lending areas.	replace the term "assessment area	
Persistent Poverty County	county" in the final rule: "Persistent poverty county means a county that has had poverty rates of 20 percent or more for 30 years, as publicly designated by the Board, FDIC, and OCC, compiled in a list, and published annually by the FFIEC."		

Product Line	to mean a bank's loans in one of the following, separate categories in a particular Retail Lending Test Area: (1) closed-end home mortgage loans; (2) small business loans; (3) small farm loans; and (4) automobile loans, if a bank is a majority automobile lender or opts to have its automobile loans evaluated pursuant to § __.22. As discussed in greater detail in the section-by-section analysis of § __.22, the definition of "product line" is intended to increase clarity regarding identifying those bank product lines that may potentially be subject to evaluation under the Retail Lending Test, as applicable.		
Remote Service Facility	means an automated, virtually staffed, or unstaffed banking facility owned or operated by, or operated exclusively for, a bank, such as an automated teller machine (ATM), interactive teller machine, cash dispensing machine, or other remote electronic facility, that is open to the general public and at which deposits are accepted, cash dispersed, or money lent.		
Reported Loan	to reference small business loans and small farm loans reported by a bank pursuant to the CFPB Section 1071 Final Rule after the Section 1071 data is available.230		
Retail banking products	mean credit and deposit products or programs that facilitate a lending or depository relationship between the bank and consumers, small businesses, or small farms. For additional discussion of retail banking products, see the section-by-section analysis of § __.23.		
Retail banking services	to mean retail financial services provided by a bank to consumers, small businesses, and small farms, and to include a bank's systems for delivering retail financial services. The agencies did not receive any comments concerning the proposed "retail banking service" definition and are adopting the definition as proposed in the final rule with a non-substantive wording change.		
Retail Lending Assessment Area	to mean "a geographic area delineated pursuant to § __.17." Detailed information regarding the final rule's retail lending assessment area delineation requirements is included in the section-by-section analysis of § __.17.	replace the term "assessment area" in § __.12 with the terms "facility-based assessment area," "retail lending assessment areas," and "outside	
Retail Lending Test Area	to mean a facility-based assessment area, a retail lending assessment area, or an outside retail lending area. The agencies believe this definition will increase the final rule's consistency and improve its readability with respect to referencing retail lending assessment areas, facility-based assessment areas, and outside retail lending areas, both individually and collectively, for purposes of the Retail Lending Test.		
Retail Loan	In relation to the proposed Retail Lending Test ²³³ , the agencies proposed to add a new definition of "retail loan" to mean, for purposes of the Retail Lending Test in § __.22, an automobile loan, closed-end home mortgage loan, open-end home mortgage loan, multifamily loan, small business loan, or small farm loan. For all other purposes, retail loan would mean a consumer loan, home mortgage loan, small business loan, or small farm loan. The agencies did not receive any comments concerning this proposed definition. However, after further review, the agencies have elected not to adopt a definition of "retail loan" in § __.12 in the final rule. Instead, the agencies are adopting a definition of "product line" in the final rule, which references loan categories relevant to the Retail Lending Test		

<p>Small Business Loan and Small Farm Loan</p>	<p>definitions as proposed in the final rule and have included amendments to transition to “small business loan” and “small farm loan” definitions leveraged off of the CFPB Section 1071 regulation’s “small business” definition once Section 1071 data is available.²⁴⁸ As indicated above, maintaining the current rule’s definitions of “small business loan” and “small farm loan” based on the Call Report is necessary until the agencies transition to using Section 1071 data</p> <p>For the same reasons as noted in the “small business” and “small farm” definitions discussion, the agencies do not find it appropriate to adopt definitions of “small business loan” or “small farm loan” based on the SBA’s small business size standards. As noted above, the SBA currently employs varying small business standards which are based on various factors, including industry, average annual receipts, and average number of employees. As a result, capturing all loans to businesses that qualify as small businesses under the SBA’s standards would necessitate the collection and reporting of additional data, including NAICS codes to determine the industry in which a business operates, average employee headcount, and average receipts over a multi-year period. This would impose increased compliance and operational burden and costs in negotiating what, for many or most banks, would be a complicated overlay.</p>	<p>Further, transitioning to Section 1071 data will enable the agencies to use borrower and geographic distribution metrics and benchmarks that provide more insight into banks’ performance relative to the demand for small business loans in a given geographic area. It also will allow for an analysis that uses an expanded data set measuring loans to small businesses of different revenue sizes, including—importantly—to the businesses and farms with gross annual revenues of \$250,000 or less, as discussed in the section-by-section analysis of § __.22, the Retail Lending Test. In sum, these definitions will enable the agencies to expand and improve the analysis of CRA small business and small farm lending for all banks, as applicable, since Section 1071 data will also enable expanded analysis for intermediate and small banks that are subject to reporting pursuant to the CFPB’s Section 1071 rulemaking. Further, because a large business may obtain small dollar loans, and a small business may obtain large dollar loans, the agencies believe the size of a business obtaining the loan is a better factor than the size of the loan to a business for determining whether a loan is made to a small business that warrants CRA consideration.</p>	
	<p>The final rule’s transition amendments will amend the definitions of “small business loan” and “small farm loan” to mean a loan to a small bank or small farm, respectively, as defined in § __.12 of the CRA regulations. The agencies will provide notice the effective date of this amendment in the Federal Register once Section 1071 data is available.</p>		
	<p>on their lending activity (e.g., use of NAICS codes) that could reduce efficiencies in their small business and small farm lending programs.</p>		
	<p>In response to comments about the inclusion of loans to individuals as small business loans or small farm loans based on income of the individual as opposed to business revenues and how renewals and other credit limit increases are considered, the agencies intend to continue historical practices with respect to these issues. Specifically, pursuant to Call Report instructions and certain limitations, loans to sole proprietorships for commercial or agricultural purposes are included in the “small business loan” and “small farm loan” definitions, respectively. Banks have historically reported the gross annual revenues relied on in making credit decisions. This reporting included affiliate revenues when relied on, but never combined individual income with business revenues even if the bank relied on the individual income of a sole proprietor in making the credit decision. The agencies continue to believe this is appropriate, because irrespective of whether the bank relied on individual income in making a credit decision, it keeps the focus on the size of the business for purposes of considering the loan under the performance tests. Therefore, under the final rule, banks will report only the gross annual revenues of the business benefiting from the loan proceeds.²⁴⁹</p>		
	<p>It is also notable that once the transition to Section 1071 data is complete, the small business loan data used for the Retail Lending Test will capture business credit transactions that are secured by real estate. For example, Section 1071 data will capture business loans secured by an applicant’s primary residence or residential investment property as collateral for inventory financing or working capital. Such loans would not be captured under HMDA because they do not involve a home purchase, home improvement, or refinancing and would not be captured in the Call Report definition of “loans to small businesses” because they are secured by residential real estate.</p>		

	For the reasons discussed above, the agencies are adopting in the final rule a definition of “small business loan” that means, notwithstanding the definition of “small business” in this section, a loan included in “loans to small businesses” as defined in the instructions for preparation of the Call Report. Similarly, the agencies are adopting in the final rule a definition of “small farm loan” that means, notwithstanding the definition of “small farm” in this section, a loan included in “loans to small farms” as defined in the instructions for preparation of the Call Report. Amendments included in the final rule will transition these definitions to reflect the final rule’s definitions of “small business” and “small farm,” which leverages the definition of “small business” in the CFPB’s Section 1071 rulemaking, once small business data reported pursuant to that rulemaking becomes available and the agencies announce an effective date for this transition in the Federal Register.		
State	To increase clarity and consistency in the CRA regulations, the agencies proposed to add a definition of “State” to mean a U.S. State or territory, and the District of Columbia. The agencies did not receive any comments on this definition and are adopting the definition as proposed in the final rule.		
Targeted Census Tract	The agencies proposed to add a definition of “targeted census tract” for purposes of certain community development categories in proposed § __.13. As proposed, this term would mean: (1) a low-income census tract or a moderate-income census tract; or (2) a distressed or underserved nonmetropolitan middle-income census tract. This definition was intended to reflect the current CRA regulations regarding community development activities now categorized as revitalization and stabilization activities, ²⁵⁰ as well as accompanying guidance in the Interagency Questions and Answers regarding relevant geographic areas for these activities. ²⁵¹ The agencies did not receive any comments concerning the proposed definition of “targeted census tract” and adopt it as proposed in the final rule.		
Tribal Government	The final rule includes a new definition for “tribal government,” not included in the proposal, to clarify the agencies’ intended meaning of “tribal government” where referenced in the final rule (see, e.g., community development categories in proposed and final § __.13 and the accompanying section-by-section analysis). As discussed above, the proposed and final community development place-based categories, including activities in Native Land Areas, include as eligibility criterion that activities be “conducted in conjunction with a Federal, State, local, or tribal government plan, program, or initiative.” ²⁵² However, the proposal did not define “tribal government,” although the agencies sought feedback on various aspects of the government plan criterion. Some commenters addressed the types of entities that should be included in the government plan requirement, including tribal governments, associations, and other designees. A commenter expressed support for defining “tribal government” to mean the recognized governing body of any Indian, or Alaska Native tribe, band, nation, pueblo, village, community, component band, or component reservation, individually identified (including parenthetically) in the list most recently published pursuant to section 104 of the Federally Recognized Indian Tribe List Act of 1994. ²⁵³	Based on comments and on further consideration, the agencies believe that a definition of “tribal government” will provide needed clarity and certainty for banks and other stakeholders seeking to determine whether activities meet the required eligibility criterion. Accordingly, the final rule defines “tribal government” to mean the recognized governing body of any Indian, or Alaska Native tribe, band, nation, pueblo, village, community, component band, or component reservation, individually identified (including parenthetically) in the list most recently published pursuant to section 104 of the Federally Recognized Indian Tribe List Act of 1994 (25 U.S.C.). As with the definition of “Native Land Areas,” this definition is derived from and intended to align with existing Federal Indian law.	
Wholesale Bank	As detailed in the “limited purpose bank” definition discussion above, the agencies are adopting the single term, “limited purpose bank,” and eliminating the “wholesale bank” definition in the final rule. This change is intended to improve clarity, minimize complexity, and provide for new and future market participants.		

Women's Depository Institution (WDI)	means "women's depository institution" as defined in 12 U.S.C. WDI" to mean a depository institution, as defined in the FDI Act, with: (1) more than 50 percent of the ownership or control of which is held by 1 or more women; (2) more than 50 percent of the net profit or loss of which accrues to 1 or more women; and (3) a significant percentage of senior management positions of which are held by women. it does recognize WDIs for purposes of the CRA.		
Current Approach and The Agencies' Proposal	The agencies are adopting proposed § __.13, with revisions from the proposal and retitled as "Consideration of community development loans, community development investments, and community development services." The final rule updates the current definition of community development to provide banks with additional clarity regarding the loans, investments, and services that the agencies have determined support community development that is responsive to the needs of low- and moderate-income individuals and communities, certain distressed or underserved nonmetropolitan areas, and small businesses and small farms.	Consistent with the structure of the proposal, final § __.13 adopts standards for when community development loans, community development investments, and community development services will receive full and partial consideration (final § __.13(a)), and replaces the current definition of community development with the following eleven categories:	

Home Mortgage Disclosure Act Notice

The HMDA data about our residential mortgage lending are available online for review. The data show geographic distribution of loans and applications; ethnicity, race, sex, age, and income of applicants and borrowers; and information about loan approvals and denials. HMDA data for many other financial institutions are also available online. For more information, visit the Consumer Financial Protection Bureau's Web site (www.consumerfinance.gov/hmda).

Economic and Demographic Data

The assessment area includes 1,770 census tracts. These census tracts reflect the following income designations according to the 2020 ACS U.S. Census:

- 187 low-income tracts.
- 329 moderate-income tracts.
- 687 middle-income tracts.
- 512 upper income tracts.
- 55 tracts without an income designation (uninhabited).

BrightBridge Credit Union Products and Services **2025**

Delivery Systems

The Credit Union offers the capability to perform banking functions through various channels. All channels are widely available to members. Traditional avenues (personal visits) are enhanced by the Credit Union's generous hours of operation. Teller services are available up to 49 hours per week depending on location.

Telephone banking services are available to all members via account number and personal access code methods. Our automated call service is available to all customers 24 hours a day and offers a full array of services including the ability to retrieve balances, loan payments, place stop payments, and transfer funds.

In addition, the Credit Union maintains a web site that provides on-line banking capabilities, credit union information including product and service descriptions, credit union news, credit union history and financial educational resources.
